

THE SOUTHERN NEWSPAPER

BURNS SEEK TALK WITH CONLEY EARLY THIS WEEK

On Return to Atlanta, Detective Announces He Will Confer With Dorsey, Lanford and Smith.

SAYS HE HAS NOT MADE FINAL REPORT ON CASE

Denies the Report That He Stated He Believed a Third Party, as Yet Unarrested, Guilty of Murder.

"I have not made my final report. Neither have I said whether or not I believed Leo Frank to be innocent. Also, I have not made the statement that I believe a third man to be guilty. Thus spoke Detective William J. Burns last night in denial of various stories that have come to Atlanta from New York and Chicago during his trip to those cities, from which he returned late yesterday afternoon. "I say this much, however, and that is that I know who is the murderer of Mary Phagan. In time I will let the public know, and I will show conclusive proof. There will not be a single ground for the public to contradict me."

Mystery No Longer. "The Phagan mystery is no longer a mystery. We have cleared it. I was confident from the outset that we would have success. It was no difficult task, and our work was simple—merely the following of the criminal trend of mind, which left no manifestations in the Phagan tragedy."

Burns stated to a Constitution reporter at the Georgian Terrace that he would make his first move this week, will be to seek conferences with Solicitor General Hugh M. Dorsey, Detective Chief Newport A. Lanford and with William J. Smith, counsel for Conley, the latter of whom recently issued a scathing attack against the noted sleuth. Burns was counsel for Conley, with a view to getting a talk with Conley.

"I do not expect opposition from any of these sources," Burns declared. "I feel assured that they will give full co-operation, and that there will be nothing hostile in their attitude toward me."

Seeking the Truth. "I have merely sought to set at rest the truth of this case, and I do not see where public officers should protest against assisting me in unearthing the truth. I do not think Solicitor Dorsey is the kind of man who would buck against co-operation with me."

Burns has just returned from a journey to New York, Philadelphia, Kansas City, Mo., and Chicago, in all of which cities he worked on mysterious phases of the Frank case which will not divulge.

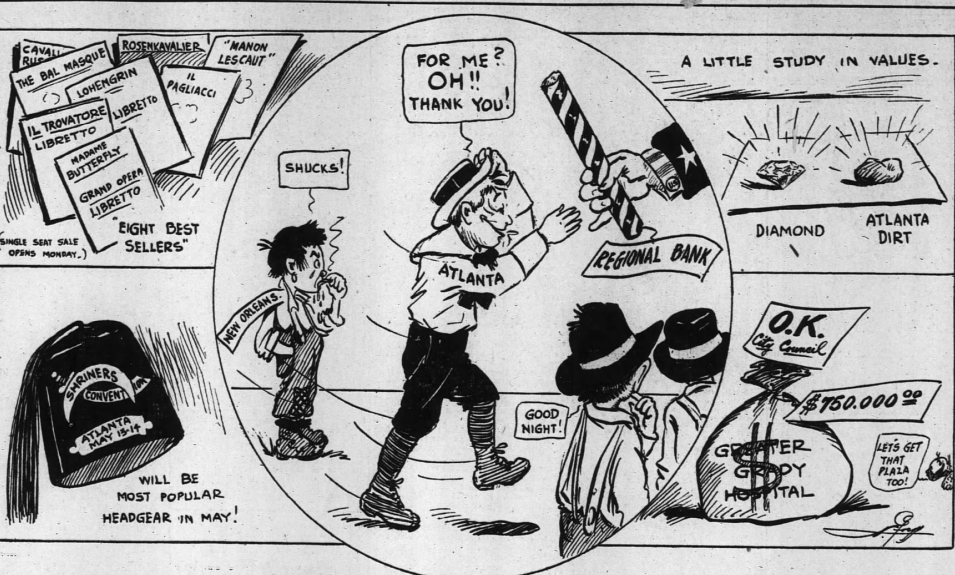

Asked the nature of these angles, on which much speculation has been created since it became known that they existed, Burns replied: "I cannot give you out at present. I can only say that they are investigations in Chicago, New York, Philadelphia, Illinois and Missouri are successful—as successful as we could have desired."

Which means that the detective has brought to Atlanta new and startling evidence from the north. **Confers With Dorsey.** Until the early hours of this morning, Burns labored in his hotel apartment with Dan Lahan and Guy B. Dingler, his lieutenants, inspecting the mass of evidence that has been accumulated by these men since the famous sleuth left the city.

Burns will render his final report about next Friday, he stated. It will be made in complete form and will be turned over to the public through the newspapers. "And then," he declared to the reporter, "the public and everything concerned will know positively who killed Mary Phagan."

DR. S. TODD IS ILL; CONDITION CRITICAL Prominent Pioneer Atlanta Physician Is Not Expected to Live. Dr. S. Todd, one of the most prominent of Atlanta physicians for many years and a pioneer of the city, is critically ill at his home, 117 West North avenue. At an early hour this morning, it was stated at his home that he could not live, and that his end would probably come within two days. Dr. Todd is 64 years old. He has lived in Atlanta all his life and won prominence here as a general practitioner and as a surgeon. About two years ago his health began to fail him, and he retired from practice. His many friends in Atlanta and over the state will learn with regret of his serious illness.

WEEK'S EVENTS PICTORIALLY TOLD

DECISION FOLLOWS WEST'S STATEMENT DECLINING TO MAKE RACE FOR POSITION

In Announcing He Will Not Offer for Place, Senator From South Georgia Expresses His Deep Appreciation to People From All Over the State for Their Generous Offers of Support.

GOVERNOR WILL MAKE FORMAL ANNOUNCEMENT IN THE NEAR FUTURE

Slaton, Felder, Hardwick and Cooper Are Now in the Race for Office Made Vacant by Death of Senator Augustus Bacon—For the Full Term Senator Hoke Smith Is Opposed by R. O. Cochran.

At five minutes past 10 o'clock last night Governor John M. Slaton, after holding an informal conference with a number of his friends, emerged from the executive office into the reception room and said: "Well, you can state for me that I have decided to make the race for the unexpired term of the late Senator A. O. Bacon."

Just prior to this announcement there had been heavy applause from the press and executive office and those waiting on the outside were prepared for the news.

West Will Not Run. Only a few moments before Governor Slaton made the declaration of his intention Senator W. S. West gave out a statement to the newspaper men at the Hotel Wincock in which he announced that he would not run for the position.

The announcement of Governor Slaton and the refusal of Senator West to make the race did not come as a surprise to those who were in close touch with the situation. The Constitution of Saturday morning stated that if Senator West wanted to run Governor Slaton would not oppose him, but would support him for the office. It became definitely known early Saturday that Senator West would not run and it was equally well known that Governor Slaton would.

Asked if he would make any formal announcement at this time, Governor Slaton said:

"No, I will do that later. At present just say I am in the race."

UNDERWOOD AND HOBSON CLOSE ALABAMA CAMPAIGN

Rival Candidates for Senate Were in Birmingham Saturday Night and Addressed Enormous Rallies of Followers.

RECORD VOTE EXPECTED IN THE PRIMARY MONDAY

The Governorship Is Also to Be Decided, and There Are Four Candidates—Other State Offices Are to Be Filled.

Birmingham, Ala., April 4.—Congressmen O. W. Underwood and Richmond P. Hobson, rival candidates for United States senator in Monday's primary, are in Birmingham tonight and enormous rallies of their followers are being held in the city. The vote all over the state Monday is expected to be the largest ever polled. Interest is heightened by the fact that a governor, lieutenant governor and numerous other state offices are also to be nominated. The candidates for governor include former Governor B. O. Comer, Charles Henderson, Reuben F. Kohl and Walter D. Seed. Jefferson county, in which Birmingham is located, will fill some of the most important county offices Monday and the contests here have been especially spirited. The official ballot which will be used in this county is three and one-half feet long.

Warmest Campaign in Years. Montgomery, Ala., April 4.—In a season of the warmest campaign in recent years in Alabama was brought to a close tonight. Rallies were held in Birmingham, Mobile and Montgomery, the state's three largest cities, and in countless other smaller cities and counties, flying squadrons of speakers covering every available section.

The greatest interest in the state, as well as in the nation-at-large, has been and is centered around the contest between Oscar Underwood, democratic leader in the house, and Captain Richmond P. Hobson, republican, from the sixth district, for the long-term senatorship. Mr. Underwood has made, but a short personal campaign, leaving his interests entirely in the hands of his friends. Captain Hobson has been campaigning for many months, making speeches in every nook and corner of the state. The contest for the short term, the lieutenant governorship, is between Senator Joseph P. Johnston, of Birmingham, and Ray Houston, of this city. Both have made a whirlwind campaign of the state. **Four-Cornered Governorial Race.** The gubernatorial race, a four-cornered affair, is being fought in by B. O. Comer, former governor; Charles Henderson, president of the state railroad commission; H. R. F. Kohl, a commissioner of agriculture, and Walter D. Seed, lieutenant governor. The

PRIMARY ORDERED FOR AUGUST 19TH

MAISON IS NAMED

September 2 Is Named as Date for State Convention.

Debate on the County Unit Plan Precipitated.

CLARK HOWELL URGES THE CLAIM OF MACON

Resolution Adopted Congratulating President Wilson on His Advocacy of Currency and Tariff Reforms and Panama Tolls Position.

After a two hours' session, during which time there was a minimum of friction though frequent discussion of irrelevant subjects, the state democratic executive committee ordered a state-wide primary for August 19, declared for the county unit plan except under certain conditions in the race of judges and solicitors, selected Macdonald as the date of the convention.

The meeting of the committee was largely attended, and owing to the red-hot interest in politics this year and the many fat plums to be disposed of, a large crowd of politicians from various parts of the state were in attendance.

Following the meeting of the committee, the members were the guests of Chairman W. J. Harris at a luncheon at the Piedmont hotel. Aside from the adoption of the rules, which fixed the date of the primary, the convention, the date of the convention and declared for the county unit plan, the committee adopted a resolution introduced by Clark Howell congratulating President Woodrow Wilson on his advocacy of legislation looking to tariff and currency reforms and the date of the convention.

Shortly after the committee submitted its report on the rules, Clark Howell moved that Macdonald be named as the convention city. He was prompted to make this motion by reason of the fact that Atlanta is grateful to her sister city for the splendid support she gave us in securing the regional bank. When the matter was taken up by the members and the citizens of Macon rallied to our aid and did all in their power to help us, then, too, I am mindful of the delightful hospitality of our city on former occasions. In making the suggestion I bespeak the approval of the delegates to be held on May 11.

WITH CARGO OF CORPSES RESCUE SHIP MAKES PORT

REPORT ON SPEED BEING PREPARED

Amid Silence Like a Funeral, Hush the Steamer Bellavente Steams Into the Harbor of St. Johns.

THOUSANDS WATCHED ARRIVAL OF THE SHIP

In Addition to the Dead, the Bellavente Brought Crippled Survivors—No News of Southern Cross With Her Crew of 170.

St. Johns, N. F., April 4.—Amid silence like a funeral hush, the steamer Bellavente steamed slowly into the harbor at dusk today, bearing sixty-nine of the dead and fifty of the crippled survivors of the disaster that overtook hunters from the steamer Newfoundland on the ice floes near Belle Isle straits in last Tuesday's blizzard. Thirteen of the living were removed to a hospital in a critical condition. Several others were seriously ill and all but one of the remainder bore scars of their thirty-eight hours' exposure in the Arctic gale in which seventy-seven of their companions met death. This unfortunates were stricken blind after being picked up, but it is believed he will recover his sight.

Five thousand persons, many of them relatives of the victims, had lined every vantage point along the harbor front all day waiting for the Bellavente's arrival and for some news of the missing steamer Southern Cross, carrying 178 men. Not a word has been heard from the latter vessel since she was seen driving before the storm Tuesday morning. Hush arose by reports that she had made harbor were dashed when investigation proved an error in identification had been made.

There still is faith in many quarters that the Southern Cross, the stout steamer that Lieutenant Shackleton, the British explorer, used on one of his Antarctic expeditions, weathered the blizzard. No wreckage has been reported.

The Southern Cross is a slow ship, but a steam point as she knots a hour under the best conditions and if driven fast by the gale, it is pointed out, would take her some time to work back into communication with the rest of the fleet.

In the absence of Governor Davidson, the acting governor, the acting premier, Mr. Bennett, directed the work of caring for the dead and wounded. Every physician and nurse in the city volunteered for service. They were aided by squads from the naval reserve ship Calypso, and various military organizations. The New Grenfell Institute was turned into a morgue. **Disaster Unavoidable.** The disaster which overtook the Newfoundland's hunters was unavoidable, according to Captain Randall, of the Bellavente, who today made a somewhat overcast, but with no hint of blizzard conditions, he said, so that it was quite permissible to put men on the ice after seas. Four ships were seen leaving the harbor on Thursday night, Stephens, Florio and Bellavente. These had a total of about twenty men on board. His own hunters had encountered a small body of seals soon after leaving the harbor and were out for only an hour. The storm broke with typical Arctic violence. The hunters from the Bellavente were seen on the ice.

J. M. HIGH CO.

Easter Millinery

The universal tendency to borrow from the past is evidenced in the now prevalent styles taken from the periods of Watteau and the Second Empire. These Watteau hats, flat on top with trimming of daintiest flowers and grasses, and tip-tipped high at the back, with bandeau massed with ribbon or tulle, have the charm of a bygone day.

Such a hat is the complement of a Pannier gown, and the two make a picturesque costume. Another swagger model has the brim sharply turned up at the side to show the hair; the other side almost or entirely covers the right ear.

For tailored wear nothing is dearer to the smartly dressed woman than the Sailor in some one of its various phases; the brim may be one inch in width or as much as four inches; the braid is lisse or hemp, and "stove polish" ribbon is certain to feature in the trimming, with miniature wings, towering aigrette height, or some queer flower.

The styles are adorable, youthful and becoming. The latest models in our Millinery Salon are: Leghorns with flower garden trimmings and filmy lace, hats trimmed with American Beauties, and are the appealing features for the *Fashion Week*.

So you are assured of the correct and latest vogue. \$5 to \$25. Third Floor.

Lace Dress Patterns

Development of North Side Marvel of Real Estate Work; Millions Are Being Spent in Attractive Subdivisions

Plans Completed for John W. Grant Home; Most Magnificent Residence in the South

The busy era of development has settled over the north side. Estimate have it that more than \$1,000,000 is being expended in the north side development of Fulton county.

With the coming of the Oglethorpe university and the establishment of the Capital City Country club at Brookhaven the select suburbs to the north of the city have assumed added vigor and have given ever-increasing momentum to the splendid and attractive realty projects now under way.

There will be more development from Brookwood to Silver Lake and in that general vicinity within the next ten years than in all the rest of Fulton county put together, is the opinion of a large number of real estate men who talked to reporters for The Constitution.

Within the past few years a variety of elaborate country homes have been erected in the suburbs of the north. New and excellent driveways are being weaved throughout the section. Sewerage, water facilities, electric light and telephone service are being extended throughout the community and cemented sidewalks are being laid.

SILVER LAKE ESTATE.

As the result of a comprehensive development plan formulated through the effort of J. P. Bottenfield, the Silver Lake estate, a corporation for which charter has been formerly adopted, will be organized at a meeting to be held here on April 15 with an authorized capital of \$100,000.

The object of this organization will be to develop rapidly and put upon the market the Silver Lake estates being comprised of a large tract of beautifully wooded land around Silver lake and fronting on Peachtree road at the site of the new Oglethorpe university.

Mr. Bottenfield, realizing that the Silver Lake property has certain natural advantages which cannot be duplicated anywhere else around Atlanta, is planning to make the estates an ideal home community, and the contemplated development is one of the largest and most important suburban improvements in the history of Atlanta's growth.

"We have already accomplished a great deal in a preliminary way," Mr. Bottenfield declared, "and we hope to have some of the property actually on the market within the next thirty or sixty days."

The stockholders of the Silver Lake estate include not only prominent Atlanta business men, but prominent business men and representative citizens in other parts of Georgia and from all over the south. The list of our stockholders bears a strong and representative character and able officers.

"Pending the organization meeting, all possible preliminary work is already under way. The underbrush has been cleared out, miles of roads have already been laid out, and practically one-third of the property is opened up."

The whole property is to be cherted and paved roads, paved sidewalks and water and sewerage, so that while residents will be able to enjoy a landscape and free and airy surroundings, which will make of the Silver Lake estates a Switzerland in miniature, they will yet have all the conveniences of the city dweller.

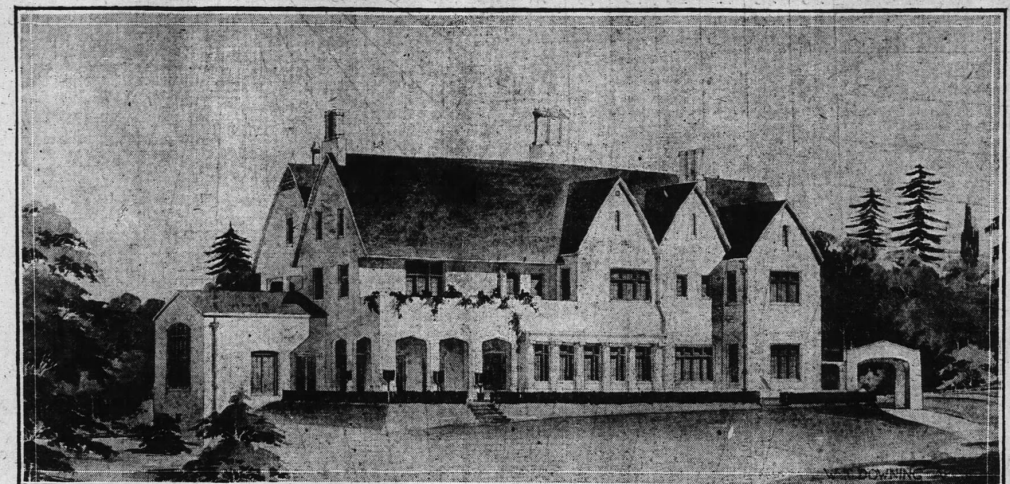

SPACE FOR PARKS.

"We propose to deal generously with the question of reserving special space for parks, and there will be building restrictions, which will give the whole property the air of breadth and spacious beauty, which is found only in the highest class residential localities. These restrictions will be such as to preserve the beauties of the landscape and the essential high class quality of the property to perpetuity."

"With the street car line running already nearly all the way to the estates, transportation facilities right to the lake and over the whole property will be furnished this summer. The property is but a fraction over 9 miles from the heart of Atlanta, and with rapid electric service and the main line of the Southern railway running past our door, the Silver Lake estates will soon become a recognized and integral part of the Atlanta community. The section is far enough away to have all the delightful advantages of true suburban life, yet near enough in for the business man's convenience."

"Long before this present development was ever taken up, hundreds of Atlantans who were familiar with Silver Lake have recognized it as the most beautiful spot anywhere within a radius of many miles of the city. We are going to build a still more beautiful spot, as well as more accessible. We are going to build a bungalow house and a bathhouse. There will also be a pavilion for refreshments, and we are planning to run a road all the way around the lake, a circumference of 4 miles.

"We expect to see the lakeside be-

John W. Grant home on Pace's Ferry Road, designed by W. T. Downing, architect.

The south's most magnificent residence is to be erected on Pace's Ferry road at the junction of Andrews drive by John W. Grant, who, at present, is touring Europe with Mrs. Grant.

The designs have been completed by W. T. Downing, the architect, and work began on the grounds several days ago. Work is being superintended by W. L. Cosgrove, construction manager. Dirt already has been broken for the structure.

The home and grounds, it is estimated, will cost in the neighborhood of \$200,000. The structure will be erected

of cement and will be the English country villa type, both interior and exterior.

Will Cover 130 Acres.

The grounds will cover 130 acres or more of native woodland. They will be interspersed with beautiful drive ways wide and curving. The topographical survey has been made and is in the hands of the landscape artists who will soon set to work to beautify the native ruggedness of the expensive estate.

The region in which the Grant home is to be located is fast becoming the

most select of the north side territory. Among those who occupy homes in the community at present are Robert F. Maddox, Edward Alton, James L. Dickey, Clark Howell, Albert Howell, Morris Brandon, W. H. Kiser, Joseph Rhodes and John D. Little, while other influential residents of Atlanta are planning to build there this summer.

The Grant home will set back 600 feet from the road on the crest of a small summit and will front on Pace's Ferry road. It will be two stories with attic and will be constructed of reinforced concrete, floor slabs and col-

umns. Purplish slate will be used in roofing. There will be no woodwork on exterior except window frames.

Design of Interior.

The interior has been thus designed: Hall, 26x51. Music room, 26x47. Morning room, 20x20. Library, 15x20. Reception room, 15x20. Dining room, 15x18. Tea room, 15x18.

Which does not include all necessary porches, kitchens, galleries, pantries and storerooms, etc. The en-

trance vestibule will be several feet below the main floor and on either side will be a large cloak room about 12 feet square.

There will be eight bedrooms on the second story, each room having individual bath and dressing room. The attic will contain a number of bedrooms with bathrooms and billiard room.

Formal garden, tennis court and other outdoor accessories will be situated in the rear of the building. In the extreme rear will be located the barn, gardener's cottage, orchard, and other accessories.

come this summer the rendezvous of autoists and pleasure parties, as well as the objective of Atlantans who are in search of a location for the ideal suburban home.

AN IDEAL COMBINATION.

"The man with a family might search the world over and not find a more ideal combination of advantages than the Silver Lake location offers. To begin with, it is just far enough and not too far away from Atlanta, the recognized financial and business center of the section of the United States which is recognized as being the richest in resources and having the most magnificent future. The prospective builder will be assured of high-class and congenial neighbors, for the property is of a kind that will appeal to people of that class. The building lots are not only themselves spacious, high and beautifully wooded, but they overlook landscapes of hill and lake and lake that for natural beauty have no rival except in the picture spots and show places of the world.

"A Mt. of Switzerland at your business door is no exaggeration of the natural beauty of Silver Lake.

"The man of family will find at Silver Lake the facilities for ideal and healthful recreation for his sons and daughters—bathing, boating and other outdoor sports.

"With the establishment of Oglethorpe university he will have at Silver Lake the most magnificent educational facilities, but the added social charm which always comes from the presence of the community of the interesting intellectual circles which help make up the university life.

ident of the future of Oglethorpe. We know that within a very few years the Silver Lake locality will not only be one of the most delightful places around Atlanta to live in, but will be one of the places which visitors from the city will always be shown with pride. Atlanta will be proud of Silver Lake.

"We believe, too, that Silver Lake will eventually be the logical site for an up-to-date summer and winter hotel, for which there has long been an insistent demand. Plans have already been tentatively prepared for such a hotel, to be placed on the hill at the end of the boulevard overlooking the lake. Competent hotel men, anxious to lease such a house, are only awaiting its construction to take it over, and are confident of its success. Silver Lake nights are cool. There is seldom a night when blankets are not required for sleeping. The hotel is one of the highest on the property, and when it is visible the Blue Ridge mountains will be visible on clear days from its porches.

"But the tourist hotel is simply one of the big incidental issues. Its presence will help make the property attractive, but it is as a residential section that the Silver Lake Estates are being developed, and it is as a residential section that they will become one of the most beautiful parts of the Greater Atlanta toward which we are all striving."

OGLETHORPE PARK.

On the beautiful woodland slopes overlooking the Brookhaven estate, Oglethorpe park—which promises to become one of the most alluring residential colonies in the suburbs to the north—is gradually being hewed out from the virgin forest.

THE FUTURE OF SILVER LAKE.

"We believe in the future of the Silver Lake Estates, just as we are con-

vinced that within a very few years the Silver Lake locality will not only be one of the most delightful places around Atlanta to live in, but will be one of the places which visitors from the city will always be shown with pride. Atlanta will be proud of Silver Lake.

Edwin P. Ansley, the motive power behind many of Atlanta's most stupendous real estate projects, the founder and projector of Ansley Park, and one of the dominant influences in Atlanta's business world.

Oglethorpe Park lies midway between Silver Lake and Oglethorpe university site. It is situated in what is destined to become the most exclusive some community of the aristocratic north side suburbs. Its tract—situated in parcels from two and one-half to ten acres—will soon be placed on the market, owing to a rapidly-increasing demand.

"Work has been progressing on Oglethorpe Park," said Mr. Ansley yesterday, "more rapidly than was anticipated. Gangs of men have been laboring for days and have begun to perfect our model of the residential park we have planned."

"The north side is the exclusive residential section of Atlanta. Within an amazingly short time it will comprise homes of such elegance that the south's most famous residences will be eclipsed. Realty promoters and private citizens have grasped the excellent opportunity that lie within their reach in the suburban district to the north.

"The main entrance to Oglethorpe Park is through the Stovall property, and opens 300 feet on Peachtree road, and then narrows to 75 feet, the width of Peachtree, just within the entrance, and continues at that width in a flourishing are around to the north and northeast through 11,900 feet to Oglethorpe university grounds.

CAR LINE WILL BE EXTENDED TOWARD NORTH.

"We have been positively assured of an extension of the car line to the Oglethorpe property, and have the support of the people of Chamblee in this move. Splendid homes will be in the fu-

ture are erected all along the line of this proposed car line extension.

"It is proposed to deed to the Capital City club a site for a new country club building. I have submitted a proposition which has been received favorably by the club officials. Oglethorpe park, when completed, will comprise one of the most naturally beautiful residential colonies in the south."

The present terminus of the Peachtree road trolley line is only a few feet beyond the entrance to Oglethorpe park. It has been prophesied—that some not far distant day, that and will be extended and projected through the Oglethorpe property.

Six thousand feet of the big tract of Oglethorpe park property fronts on north Peachtree road, which is already open to Dunwoody from the main Peachtree road. Fulton convicts have begun grading that road, in preparation for the pavement to come.

The proposed extension of the Fulton road into the Brookhaven area crosses Oglethorpe park. The property straddles the Fulton-Dekalb north and south boundary. All of the immense park, with the exception of a single lump of fifty acres, is in one piece in the original tract.

It comprises the S. C. Stovall property, the Hart property, the Carter, the Mabry, Ansberry and Ashford properties. They have all been combined into the Oglethorpe park estate.

S. E. Davidson, who is in direct charge with Mr. Ansley, of the park development, has had this to say of the north side as a future residential community:

IRRESISTIBLE TREND TOWARD NORTH.

"The north side's future rests with big elemental forces. They are forces which no one can make or unmake. They are toward the north. The magnetic

pole of that trend is the space between Oglethorpe university and the Brookhaven area. Which is Oglethorpe park."

Typical of an E. P. Ansley enterprise, the Oglethorpe park development is being put under way lavishly. No pains or money are being spared. Whatever is required to mould the area into a beautiful residential colony is being put into the project whole-heartedly.

"The climatic advantages of Oglethorpe park," says Mr. Ansley, "are incomparable anywhere except in the mountains. It is a veritable mountain itself, where the breezes tumble from the hills.

"The scenic properties are exquisite. Miles and miles of virgin forest stretch far away, while green valleys roll before the eye in a marvelous picture. The sheer beauty of it all is nothing short of inspirational.

"There is everything in the vicinity of this property which would attract the fastidious home-seeker. It has a combination of semi-city and country advantages. It has everything offered by an estate deep in the rural regions. All this augmented by the accessibility to the south's greatest city.

"The landscapes will be modeled by the most expert artists of the country. The wide, curving driveways, graceful in outline and as level as flooring on surface, will interpenetrate the forest clumps and lawns like white streams. A word picture cannot begin to do justice to the scenic beauty of the proposed place. Neither can a brush of the painter.

"There is no doubt but that Oglethorpe Park will be the grandest dwelling colony in the south. It will be furnished electric lights, water facilities, telephone service and sewerage. There will be tiled and cemented sidewalks.

walks and shadowy lanes through great depths of forest."

WOODLAND HILLS.

Thousands of dollars are being spent in developing Woodland Hills, the scenic residential colony of the north side suburbs, which is being promoted by W. E. Worley, who has had an active part in many of the city's most successful realty undertakings.

Woodland Hills is in one of the most select spots of the new residential community being penetrated by dwellers seeking homes in the suburbs. It borders on Pace's Ferry road, Briarcliffe road and Chamblee Bridge road, all popular automobile thoroughfares. It is beyond Piedmont park a slight distance and is likewise a neighbor to fashionable Druid Hills. New roads and driveways intersect the subdivision. Mrs. Worley is talking of the Woodland Hills project was enthusiastic.

"It will undoubtedly be one of the most successful residential undertakings in the northern suburbs," he said to a reporter for The Constitution. "We already have felt a great demand for tracts, and from present prospects, it looks as though our present average will not only be met, but the heavily increasing demand."

Woodland Hills is the most easily accessible colony in suburban Atlanta. It is bounded by many of the most frequently used roads in the northern part of Fulton county, and it is honey-combed with roads that have been in use for years and with new driveways that have been graded and are in course of construction.

"Atlanta is spreading unerringly toward the north. The future residence of the fashionable citizen and the wealthy business man will not be within the city limits, but will be upon some country estate."

"Woodland Hills is naturally equipped for an ideal community. Its broad expanses of hills and forestland, with valleys and level stretches here and there, offer excellent advantages for dwellers. Our subdivisions are being organized so that there will be liberal space and so that each home will command its grounds."

LANDSCAPE ARTISTS AT WORK.

"Landscape artists have been at work and are modeling the tract along the border line of Woodland Hills. The Briarcliffe road, formerly the Williams Mill road, a popular highway, now runs to the Chamblee road. Gangs are at work grading roadways and avenues preparatory to paving and the laying out of the scenic artists in charge of Woodland Hills are following the popular theory of the value of driveways and are modeling them in long, curving lines, and are placing them liberally throughout the estate."

"The Seaboard Air Line railway runs along the border line of Woodland Hills. A proposed station will be built at a convenient spot, which will add to the convenience of all residents of the hills. Woodland road, a long, sweeping highway that traverses the entire area of Woodland Hills, crosses the railway through an underpass.

"The curves graceful beyond the railway tracks, near which it merges into Woodland circle, another beautiful byway. At the intersection of these avenues, a small park will be constructed in the wide space created by the intersection. Both roads then widen as they cross the estate to Arlington road, which leads to Highland avenue. It is beyond Druid Hills. Its inducements are incomparable. Its scenic wonder, alone, is sufficient to allure. A home in such territory is comparable only to dwelling in some country wendland, where there is nothing to mar the native beauty and advantages of the community."

PEACHTREE HEIGHTS PARK.

Home building is progressing rapidly in Peachtree Heights Park, one of the handsomest and most attractive residence sections in suburban Atlanta.

Additional roads are being rapidly opened, graded and paved, while the old roads have been resurfaced, and are like new, so that, altogether, the driveways through the park are now among the finest and among the most popular with automobilists.

Smooth cement sidewalks have been laid and other improvements are now progressing rapidly. Handsome homes are being built on Peachtree street by J. Epps Brown, Hudson Moore, and a number of others are in course of erection over the park.

"The magnificent home of E. R. Kirk, on Andrews avenue, is rapidly nearing completion and will soon be occupied."

VIEW OF CAPITAL CITY COUNTRY CLUB, SHOWING PART OF THE LAKE

Sunday, April 5, 1914

E.D. Hoott

THE clearly defined waist line and the flaring tunic appear on the suit of needlecord material. The soft white collar is of corded silk, and in front the jacket buttons quite low over a vest of white silk. Hat of milan straw the color of the suit, with a high black plume placed on the side.

Beneath the puffed panniers of the frock of green flowered silk is a plaited ruffle of plain green tulle. Double frills of white tied with narrow black ribbon finish the sleeves, and a bow of black net with small flowers of yellow satin finishes the girdle. The white chip hat is effectively trimmed with a fancy plume in black and white.

SCALLOPS and buttons in deep, violet gayly trim the wash frock of white crepe. A finely wired collar of shadow lace softens the neck and joins the vest of shirred net. The net also forms the undersleeves. The wide girdle of violet crepe fastens a little to the left of the back with a buckle of mother-of-pearl. A white chip hat with cream or white silk is faced with black moire, and is trimmed with a standing spray of bright colored flowers.

Atlanta Suffragists Plan Dramatic Celebration Here Organizations Unite for Parade May 2

Atlanta's three women's organizations making for equal suffrage will unite to celebrate National Suffrage day, May 2.

Acting on the call of the National American Woman's Equal Suffrage association, published through the Georgia auxiliary, Mrs. M. L. McDonald, president, all Atlanta's suffrage associations will observe Suffrage day.

It is an interesting fact that Atlanta now has three women's organizations devoted to suffrage. One of these, the Atlanta Equal Suffrage association, was organized in 1908. The Georgia Equal Suffrage league, which has its charter and is a part of the state organization. The Atlanta Equal Suffrage league, and the Atlanta Equal Suffrage party have applied for state charters.

Mrs. Amelia Woodall is president of the Atlanta Equal Suffrage association. Mrs. Frances Smith Whitehead is the president of the Atlanta Equal Suffrage league, and Mrs. Emily McDougall is the president of the Atlanta Equal Suffrage party.

Ably Leading Organization.

Mrs. Woodall has been working in the cause of woman suffrage for many years, and is ably leading the activities of her organization. She was elected president to succeed Mrs. M. L. McDonald, who is president of the state body, and who is one of the pioneer women in the south working for the cause.

Mrs. Frances Smith Whitehead, the leader of the Suffrage league, is one of the most brilliant and intellectual women of the state, and has studied the status of the southern woman of today; her relation to public life and her ability to actively participate in it.

Mrs. Emily McDougall is the leader of the last organized suffrage band, known as the Georgia Woman's Suffrage party, and she was the promoter of the recent public meeting here at the Atlanta theater when the national

officers, headed by Jane Addams, came to Atlanta to address the meeting. These three ladies have appointed members from their organizations to unite in a joint committee of arrangements to perfect the program for the National Suffrage day.

All three bodies and all people interested in the cause of suffrage are invited to take part in the parade.

Automobiles will be decorated in the suffrage colors, yellow and black, and a yellow and black banner will be carried by two men on black horses. Ladies will wear white aprons and "suffrage hats."

Mr. Beaumont Davidson was appointed to secure the privilege of placing young ladies in all the department badges, buttons and pins, three days before the parade.

It is hoped that the parade will be a success, and that the suffragists will be able to place their ministers of the city to preach on suffrage April 27.

BIBB COUNTY FARMERS FIGHT JACON ORDINANCE

Don't Think They Should Have to Pay License to Sell Their Produce.

Macon, Ga., April 4.—(Special.)—The farmers of Bibb county are up in arms against the ordinance which requires that they pay a license fee to sell their produce in the city of Macon. The ordinance was passed by the Macon city council, and is now being enforced. The farmers are protesting against the ordinance, and are threatening to withhold their produce from the city market.

The ordinance requires that all farmers who wish to sell their produce in the city of Macon must first obtain a license from the city council. The license fee is \$1.00 per year, and is payable in advance. The farmers are protesting against this ordinance, and are threatening to withhold their produce from the city market.

STYLE SHOW PLANNED BY CLOUD-STANFORD

Students From Georgia Tech Will Act as the Models at Unique Exhibition.

"Atlanta in the matter of men's styles, takes rank with New York and Chicago." This statement was made yesterday by a representative of the Cloud-Stanford clothing store, which is planning a style show to be held tomorrow.

Men today, continued this same authority, "exhibit much concern about their apparel and business leaders generally claim to be able to justify their man's efficiency in no small degree by the clothes he wears. Style shows are being held this spring by the leading men's clothing stores in New York, London and Chicago along the same lines as the one now being planned by the Cloud-Stanford store."

The show will exhibit, with athletic students from Georgia Tech, the latest styles in men's clothing and furnishings for all occasions. The proper dress and method of wearing the clothes, hats, shoes, belt or vest will be shown by young men accustomed to appearing in the best circles. The exhibition will be divided into two periods, morning, afternoon and night, and music will be furnished at each session.

Floral decorations have been installed to add to the appearance of the store. The store is located at 111 N. Peachtree street, and is owned by Mr. Cloud-Stanford.

LOSS OF \$300,000 CAUSED BY BIRMINGHAM FIRES

Birmingham, Ala., April 4.—Two fires in Birmingham and East Birmingham today destroyed property valued at more than \$300,000. The fires broke out shortly before midnight, and destroyed the downtown section of the city. The business district was a complete ruin. The loss was estimated at \$300,000, and the cause of neither fire has been determined.

While a fire company was fighting the downtown fire, an alarm was turned in from the Stockham Pipe and Fitting company's plant in East Birmingham. The cause of the fire was not known, but the flames did not spread. The loss was estimated at \$100,000. Insurance, it was said, entirely covered the loss. The cause of neither fire has been determined.

SHE LEFT ONE MILLION TO WORTHY CHARITIES

New York, April 4.—The distribution of \$1,000,000 to worthy charities is the work assigned to George Ramsey and William McKaster, who were named as executors of her estate by Mrs. Amelia Gertrude Cutter, who died yesterday.

She was the wife of Mr. John T. Cutter, who died on January 21, 1913, leaving an estate of \$1,000,000. The sole disposal of his widow's estate was made by her will, which provided that she should leave a fortune to the good of mankind.

EVERY WIFE'S DUTY

Watch Husband's Hair. If Thin or Full of Dandruff Insist on His Using Parisian Sage.

Men as a class give but little thought to the care of the hair. Not until it comes out by the comb, or some friend remarks that they are bald, do they really take notice—then it may be too late.

If your husband's hair is getting thin, if he has dandruff, or the scalp itches, take immediate action—do not let him become a bald head.

Get from any drug or toilet counter a 34 cent bottle of Parisian Sage. It contains the exact elements to supply hair and scalp needs. The application removes all dandruff—the great hair destroyer.

Parisian Sage is a hair tonic and scalp treatment. It is a hair tonic and scalp treatment. It is a hair tonic and scalp treatment. It is a hair tonic and scalp treatment.

A Chest of Silver The Family's Best Gift to the Bride

In selecting a flatware pattern for a bridal gift, particular care should be exercised.

It is not like picking out something which will be replaced from time to time. The silver you will give will be used and prized as long as it will probably be added to at frequent intervals.

Our stock of Sterling silver was chosen with this idea in mind, and we believe our selection will meet with your hearty approval.

Our engraving is noted for its smoothness and beauty. It doesn't ever pay to hurry engraving, and we suggest that you anticipate your requirements and order early.

Samples and prices will be gladly submitted either in the store or by our Mail Order Department.

Special Music Service.

King's immortal oratorio, "Stabat Mater," will be rendered on the evening of Good Friday, April 10, by the choir of St. Luke's Episcopal church. The choir will be augmented by a number of especially capable singers from other churches and several instrumentalists. The service will begin promptly at 7 o'clock.

"Stabat Mater" is one of the most appealing of all the oratorios. It is a story of a large committee of the church and society women, appointed by the ministers' association of the city. This festival is described as something unusually attractive and elevating in its line. It contemplates putting the whole city under an embargo of flowers for a week or more.

A Flower Festival.

A great April-May flower festival for Atlanta is being planned under the auspices of a large committee of the church and society women, appointed by the ministers' association of the city. This festival is described as something unusually attractive and elevating in its line. It contemplates putting the whole city under an embargo of flowers for a week or more.

Miss L. M. Morse, who is to contract and execute the plans of this unique flower festival, will arrive from Chicago Sunday. She has had wide experience and great success in this work in other cities, and is confident that her success in Atlanta will go beyond any of her past experiences. A committee of church and society ladies will meet Miss Morse in the ladies' parlors of the Piedmont hotel Monday afternoon, April 6, at 2:30 o'clock. The committee will probably speak before the society's meeting on Monday morning.

For Mrs. Van Winkle.

Mrs. William H. Smith entertained at a beautiful luncheon yesterday at her home in compliment to her mother, Mrs. J. Augustus Van Winkle, of Peachtree, who is visiting her. The luncheon was artistically decorated with ferns and a profusion of violets, hyacinths and sprays of white spring flowers.

The Vital Element in Silver Buying Is Its Initial Selection

SILVERWARE is good in proportion to the artistic knowledge and good taste of the one who selects it. Whether the article is made in America, in England, in France, in Germany or elsewhere, its merit depends entirely upon the knowledge of and good taste displayed at the point of its first selection.

You are well and conscientiously represented in the world's silver markets by The Eugene V. Haynes Company. We believe that in skillful buying rests our greatest strength.

We call your special attention to the exquisite patterns, the newest designs now on exhibition in our silver collections. Simplicity and refined dignity prevail in the leading patterns of this season, the leading styles being shown in the following popular patterns:

Third Ward Civic Club.

An interesting meeting of the Third Ward Civic club was held on Friday at the home of the president, Mrs. John Justice. Many plans were laid for the summer work, and a series of entertainments were suggested. Mrs. P. V. L. Smith being made chairman of the committee to plan this work.

An appeal is hereby made to all women of the ward to take an active interest in "clean-up" day, April 18, as it is desired to have all citizens help in the work. A large number of the women of the ward will be met at the end of the West View car line on automobile and be given transportation to the sanitary.

A large number of women will attend the meeting at Charleston, May 5. Dr. Florence T. Truax will represent the club at the banquet at Chicago. At the next meeting, May 1, will be held the annual election of officers. The nominating committee consists of Messrs. James A. S. White, V. Smith and C. P. White. This meeting will be held at the residence of the secretary, 75 Augusta avenue.

FROM 7 MEMBERS YAARAB TEMPLE HAS INCREASED TO 1,800

An evidence of the rapid growth of enterprises in Atlanta, it is of interest to the present time to note the wonderful increase in the membership of Yaarab Temple, Nobles of the Mystic Shrine.

A few years ago Billy Florence, the actor, pointed down upon Atlanta with the secrets of the ancient order of Shriner. He interested the late Harry C. Stockell, who organized Yaarab temple, and conveyed the message of this high and honorable order to seven Atlanta, who became charter members of Yaarab temple.

Those six Atlantans were A. J. West, Dr. R. M. Ross, Thomas H. Morgan, H. P. West, D. M. Bain, Dr. J. G. Harwood and Albert Howell, Jr. That membership has grown into now Yaarab temple, whose members at 1,800, who will combine to let the world know in May that Atlanta is on the map of progress and up-to-date-ness.

Revival at Thomsville.

Thomsville, Ga., April 4.—(Special.) A series of revival services are being held in the First Baptist church here conducted by the Rev. John F. Purser, of Atlanta. He is assisted by the pastor, the Rev. W. M. Harris and the Rev. C. H. Stockell, who organized Yaarab temple, and conveyed the message of this high and honorable order to seven Atlanta, who became charter members of Yaarab temple.

"THERE IS BUT ONE FAIR AND HONEST WAY" To Determine the MERIT of a Ready-to-take Medicine

No one can speak positively of the worth of any medicine until he has tried it. Not tried it on others, but tried it on himself. Any one who has been afflicted with a chronic ailment and experienced relief from some remedy, and only he can give testimony that is worth anything concerning the remedy.

The people who have taken PERUNA know what PERUNA is. The people who have read about PERUNA or heard about PERUNA, have a more or less imperfect knowledge of it. The true test, the only fair and honest way, is to try it. Read the remarks below, made by people who know PERUNA. If you are interested, send for the "Bills of Life," full of similar testimonials from honest men and women all over the United States.

Mrs. A. E. Stouffer, R. R. 1, Seaboard, Kas.: "PERUNA has given me health and strength; it is the best medicine that was ever made for women. My friends say they never saw such a change in a woman. I talk to every one about PERUNA. I cannot say too much for it."

Mr. Isaac Horenberg, Fremont, Mich.: "I was taken sick last spring and was unable to work for three months and a half. My weight was reduced to 135 pounds. At last I was advised to use PERUNA. I have now gained my

usual weight. PERUNA gave me a splendid appetite. I feel strong."

Mrs. Marie A. Lester, No. 223 34th St., Chicago, Illinois: "I was troubled with systematic catarrh for years. The catharsis had got all through my system, head, throat, stomach and other internal organs. Tried many remedies. Did no good. Took PERUNA at the suggestion of a friend. Was surprised at results. I am now perfectly well and strong. That week, tired feeling has left me."

Mrs. Alvina Flamm, No. 2023 Elm St., Milwaukee, Wis.: "I am now able to do my housework again, and have a good appetite. PERUNA did it for me. We always keep PERUNA in the house. We use it on my husband and children. I thank you a thousand times for your advice."

When the rebels entered the place they found only one nurse, Dorothea de la Cruz, in attendance. She said that the other nurses followed the army.

Wounded Not Harmed.

The patients were in a high state of anxiety, for they had been told that Villa took no prisoners. They were reassured by H. S. Cunard-Cummins, the British vice consul at Gomez Palacio, who entered the hospital first, climbing over bodies of the wounded and children. I thank you a thousand times for the odor of dried blood.

Wanted

To correspond with owners of small, well-located and desirable tracts of land in or directly adjacent to growing, prosperous towns, with a view to subdividing into business, residence or villa sites, and sell for owner at either private or auction sales.

I have a thorough organization, employ only experts in their line, and my record of more than a million of sales in the south speaks for itself.

Tracts of from five to fifteen acres are preferred. Unless present or prospective development warrants an advance in value, or unless a substantial growth of a town in question makes the purchase of lots desirable from either an investment or occupation standpoint, do not reply.

If, on the other hand, you want to turn your land into cash or good paper, and there are reasons why the buyers I should find should make good on their investment, write me at once and I shall endeavor to make a quick and satisfactory offering for you.

Well-located tracts, when properly subdivided and sold, should bring the owner large profits on acreage prices.

References from bankers, state and county officials and other large property owners furnished upon application.

VILLA IS NOT PURSUING ROUTE FORCES OF HUERTA

Rebel General Leaves Torreon to Attempt to Capture or Annihilate Army of General Velasco.

CORPSES OF FEDERALS CREMATED AT TORREON

Villa Was the Soul of the Conflict at Torreon, and the Credit of Victory Belongs to Him—No Wholesale Executions.

Torreon, Mex. April 4.—(Via El Paso, Texas, April 4.)—This city, from which General Velasco fled, and most of the unfortunates of the command fled yesterday, was occupied by the rebels in force today, and the work of burning the bodies of the dead, clearing away the wreckage of shattered adobe walls, and leveling the ruins of the city, was in progress.

While Villa took a large number of prisoners, Velasco escaped from the Canyon de Huacachilas with a considerable portion of his force. He was pursued last night by General Hernandez, who told reporters that he had fought a small rear guard engagement with the retreating force, and later General Velasco was seen with his troops, and was making an attempt to capture or annihilate it.

Non-combatants here with whom the Associated Press correspondent talked today, estimated Velasco's garrison did not number more than 5,000 men, of whom 1,500 were killed or wounded.

When the rebels entered the place they found only one nurse, Dorothea de la Cruz, in attendance. She said that the other nurses followed the army.

Wounded Not Harmed.

The patients were in a high state of anxiety, for they had been told that Villa took no prisoners. They were reassured by H. S. Villa Soul of the Battle.

Villa was the soul of the battle. His spirit animated everything. When things were going wrong he would gallop along the battle line, encouraging or reprimanding as the individual case required.

"Well done," he said to the gunner

British official announced that Villa had assured him none of the wounded rebels had harmed themselves. They had the strength raised themselves. The insurgents have shown no disposition to harm those Spaniards who are known to have remained neutral. Other foreigners, including fifty-five Chinese, Syrians and Australians and 100 Americans were unharmed, so far as could be learned today.

Velasco Reported Wounded.

It was reported that General Velasco himself was wounded, but this report, like the one that he was in the trenches, could not be confirmed, and the impression prevails that he is still at the head of his troops. Two federal generals were killed and three wounded.

It is said here that Velasco's retreat was brought about by his losses in the night assaults made by the rebels and indications that his soldiers were being worn out by the prolonged fighting and the fear of the cruelties which they were told Villa practiced on the wounded prisoners, were on the verge of mutiny.

In the course of the house to house fighting rebels and federales frequently came within talking distance of each other and in some cases got on such friendly terms that they ceased firing entirely. In most of these cases the federales were persuaded to remain where they were, and were not to be enrolled under the rebel banner.

At least a fortnight and probably a longer period will be required to reorganize the army before the expected campaign against Saltillo and Monterrey can be made.

Rebel leaders are awaiting news of the political effect of their victory on Mexico City and Washington.

The federal army was superior to that of the rebels, many of whose shells proved defective.

whose shell had fallen true. "Man like you will reward Mexico," he commented a wounded man who remained in the trenches.

"What boy, do you find the dancing floor too rough?" he chided a soldier who, in some protest, was making for the rear.

As he was in his headquarters at Gomez Palacio Thursday night when Torreon fell. Almost up to the hour of the federal flight he could not see the end of the battle and that morning he telegraphed for his men.

His black, thick hair was mussed and standing straight up for the most part, and a six-day stubble of beard was on his face. News of the evacuation had reached him, and he smiled, fairly burning his answers to questions put by newspaper men.

Tell the public that after eleven days fighting the federales evacuated Torreon, leaving their dead and wounded behind them. That is all," he concluded.

Stories are told here of alleged insults to the American flag perpetrated by federales in the evacuation of Torreon, but these are being denied by a matter of fact, there were no such insults.

Dr. A. N. Carr, an American resident of Torreon, was the only physician to remain in the city after the evacuation. He transferred his services to Villa and the rebels, and he refused to continue his work in the hospital.

The federal army, which was unharmed, so far as could be learned today, was reported to be in the city, and was making an attempt to capture or annihilate it.

DEAD HORSES AND MEN PAILED HIGH TORREON

Villa Took Only 30 Prisoners Alive and Unwounded—On to Capital, Villa's Cry.

Chihuahua, Mexico, April 4.—When General Villa took Torreon he took thirty prisoners alive. Villa was wounded, according to information received here today. Whether this means many were executed or that General Velasco, the crippled but valiant federal commander, escaped with nearly all of his army not dead or disabled, could not be learned. However, it is known that he made the first few miles of his escape on troop trains which he abandoned when he came to the first place where the rails had been removed. This circumstance is construed in favor of the reports that he got away with the remnant of his army intact.

Dead Horses and Dead Men.

A disheveled man in an Italian army officer with a large mustache, who was one of the first to enter the city, was piling high the ruins of the city are scattered with the bodies of the dead and the bones of men and animals in the streets.

"Among the dead are some of the killed patriots who fought against Villa. He attempted to check Villa's advance. When Villa entered the city he only the thirty who were prisoners remained to tell the tragic story of the fighting. Thursday, when the rebels entered the city, they threw down their arms and took to flight."

The Italian's account of the number of dead horses and men was confirmed by a large supply of dead horses and men, which were found in the city.

Villa's Future Movements.

As to Villa's future movements local strategists say they believe that he will proceed simultaneously against Saltillo and Monterrey, to the east and Zacatecas, to the south. Assuming success in the campaign, he will take the two armies then will reunite against Mexico City. They assume it will be reduced by rebel forces already in the city.

Millions regard the retreat of General Velasco from Torreon as a dangerous undertaking. They consider the positions of General Velasco at Saltillo and Monterrey as precarious. So far as the federal army is concerned, the retreat of General Velasco from Torreon is a matter of course. The federal army is in a position to capture or annihilate it.

At least a fortnight and probably a longer period will be required to reorganize the army before the expected campaign against Saltillo and Monterrey can be made.

BEWARE OF

GRADY'S CAMPAIGN TO REIGNITE

This Decision Is Reached at Conference of the Publicity Committee Held on Saturday.

Following a conference of the publicity committee of the Grady hospital committee on Saturday, it was announced that the campaign to float an issue of \$750,000 in bonds for the improvement of the hospital will begin Monday.

At the conference were R. L. Foreman, chairman of the publicity committee; Dr. W. R. Summersall, superintendent of Grady, and Charles S. Northern.

The committee decided that the first steps to be taken in the campaign to educate the people of Atlanta as to the needs of Grady improvements will be in the shape of architects' drawings of the buildings contemplated to be erected with the bond money. The committee will plan before the election every detail of the hospital improvement in order that the voters will know to just what use the money will be put.

According to members of the committee it is probable that the first building to be shown will be a new nurses' dormitory, which will cost in the neighborhood of \$150,000. The committee will let the public see the sort of quarters are now provided, and let the people judge for themselves whether it is fair to expect the hospital to progress to any extent when the quarters for the nurses are worse than the quarters occupied by negro servants.

Arman Foreman stated that the committee will consult with Atlanta's most expert architects and will ask them to submit drawings. These drawings will be more propitious of what the greater Grady hospital committee contemplates.

There will be a meeting of the committee at the Levy National bank at 3 o'clock Monday afternoon. The central committee will plan the campaign, which will be waged night and day through the newspapers, printed citizens' letters and by mail until May 5, the date of the election.

Milledgeville Waterworks.

Milledgeville, Ga., April 4.—(Special.) In Milledgeville a new waterworks system is now an established fact. Construction of a modern system, to be owned by the city, is now in view. The city council has awarded a contract to the Georgia Waterworks company, of Atlanta, for surveys of possible sources of water supply, laying out of mains and extension of the sewerage system, this to be completed by June 15.

GRADY'S CAMPAIGN TO REIGNITE STATE'S POLITICAL GRAND

FOR MORE POLITICAL PLANS

SOUTH GA. STATE'S CAMPAIGN
Savannah, Ga., April 4.—(Special.) An enterprising Savannah politician has recently launched a remarkable campaign in the shape of a petition drive to demand for south Georgia a more equitable distribution of the state political plans.

The publication of a page newspaper article headed "A Half Century of Political Neglect" was the opening gun in the campaign. The article was well prepared and contained statistics to show that for fifty years there has been a dead life which has prevented south Georgia from sharing in the political apoplexy. It gives a list of the various offices, together with the names and home counties of those who have filled them.

"Incidentally have the north Georgia politicians been able to have a few things to say about each other. Colonel Cooper has already, in a speech at Nashville recently, declared, in answer to the statement that Mr. Hardwick is running for the senate on his record as congressman, that as far as his record goes, Hardwick has no record on which to run.

In this connection, Colonel Cooper

"When Speaker Champ Clark, in his great speech in the house the other day, referring to congressman Hardwick, said that he was a 'home boy' he was out in what I said about him. Just wait until I get him together with some of the other 'home boys' and we will see whether or not he has a record."

Colonel Cooper is some stump working. He is known as a 'home boy' and is being used by the state for the senate, and the announcement of Oden G. Parsons, of the same party, that he will be a candidate in the rotation plan is in Monroe county, where he has been for some time. It is expected there will be other entries.

Local politics there is absolutely nothing doing. If any of the Bibb county officers are to be opposed it is being kept mighty quiet. No date for a county primary has yet been set.

Out of a possible 8,000 voters in this county, only 1,500 have registered and there are only two days left to which to qualify.

bar, are interested in the report that he may come to the use of his name for the court of appeals.

In referring to the report the Atlanta correspondent of The Associated Press quotes Mr. Stephens as saying: "I have been urged to run for the court of appeals. Should I continue to receive as flattering offers of support as I have been receiving from friends throughout the state, I shall, in all probability, accept the nomination."

"I wish to add in this connection that I regard a seat upon the court of appeals as a high and distinguished honor—one which should not be carelessly and without due consideration bestowed upon any man. Only a lawyer of experience in the practice and a student of the law should be elevated to this position. It is not a political office, and political considerations should not enter into the selection of a man to fill it. No man should run for this office upon the basis of the political, economic or moral questions, however meritorious, that may be agitating the public mind and that are in issue in other campaigns. A candidate for this position should run only upon his merits as a lawyer and a citizen."

An Overflowing of Grace and Richness in Our Spring Fashions—An Extraordinary Pre-Easter Preparation

THIS 1914 EASTER will be a very welcome one, reserving its date of appearance to conform beautifully to the plans of spring. The flowers and green things have had a growing chance and will be able to decorate after their own hearts.

While this thought is only a pleasant fancy, the deep-rooted truth is in the magnificent preparations in this store which one may see requires time. Thus you will agree that an April date for Easter is opportune.

Easter Plans in Our Spacious Dress Department

Beautiful Flower Printed Crepe and Taffeta Dresses \$17.75

One of our best plans for your Easter wear developed only yesterday in the arrival of a large lot of strikingly beautiful and well made silk dresses. This is one of your surprises, for when you've examined them you will approve of both style and quality—and get the surprise in the price.

The color of your fancy is here. Every charming spring effect is shown, handsome flower-printed silk crepes, all prettily touched with fine lace at neck and hands. Taffetas are black, blue and browns. There are very many different models—and they're \$30 and \$35 dresses. A special large purchase made it possible for us to sell them at

\$17.75

Some Extra Fine Dresses For Afternoon and Evening For Grand Opera Wear

Please extend your visit to our magnificent display of fine afternoon and evening dresses. This section has blossomed into a spring atmosphere of exquisite daintiness in refined colors and a richness to fascinate beyond resistance. Select your best gowns while models are new.

Our Extensive Showing of French Blouses

The season's latest models of

Lace, Georgette Crepe, Chiffon Crepe de Chine and Voile

The fashionable collar novelties—the new waisteats and vestees—and the latest sleeve effects; cleverly combined in models extremely modish—well made—and remarkably good values.

We're showing this week a marvelous variety of fascinating French Blouses in—

Crepe de chine and lace, white and colors, \$2.95.

Crepe de chine and chiffon, \$5.95.

Taffeta, the new sash model, \$3.95.

Extraordinary value in voile blouses, \$1 and \$2.

Beautiful Regaliste Corsets

Beauty of form, beauty of fabric, beauty of finish—all of grace, all of comfort—the truest words one might say of the perfect Regaliste Corset are these.

Wear one, fit these words to your REGALISTE experience and watch them unfold—each one a separate, tangible truth.

REGALISTE CORSETS are noted for their fine materials and exquisite decorative finish—lace and ribbons being most artfully used.

Regaliste Corsets are exquisitely graceful; having few bones, it creates an original grace of the Grecian type so much sought. Get perfectly fitted here in a Regaliste and realize the beauty and comfort of a good corset.

Two Handsome New Homes for Peachtree Heights Park

Great Success of Country Boy In Atlanta Real Estate Field; Repaid for Faith in N. Fulton

word for it the time is coming—and at not so far distant a day at that—when the Peachtree road property will be the highest-priced and most sought-after land of its kind, not only in and

around Atlanta, but in the whole south. "It was two months before I made a sale when I first came to Atlanta to enter the real estate business, and my first year's commissions only totaled \$2,500. The second year, however, my sales ran up over the \$500,000 mark. Of this, \$470,000 was in a sage land and the balance in central and semi-central property.

"My faith in the future of the northern section of the county has been growing in leaps and bounds during these four years, and I am now handling three big acreage tracts from which we expect to get magnificent results. One of these tracts is on Piedmont avenue, near Peachtree road, another on the Peachtree road, and still another on the Decatur and Chamblee roads. There is at least \$100,000 worth of property in the total acreage, and in ten years it's going to be worth from two to five times that.

Great Development in Store. "You can mark my word, property that is now complained of by some purchasers as being high will be looked back upon in the near future as an opportunity lost. The best developments are set for north Fulton, and I don't believe there is anything in the world that can stop it. That section of the county is going to show ten times as much development during the next decade as all the rest of the county.

"I attribute the remarkable amount of trading in this land lying directly north of Atlanta to the fact that the people of this city have, in such great numbers, been turning their eyes to the country to supply them with homes. They are getting tired of the hustle and bustle of the city and of the constant changes made necessary by the encroachment of business, and they are accordingly coming out into the most beautiful section of the county to build their homes.

"I haven't missed a week day in

the past four years at my office, coming down early morning in my automobile and returning home to supper. I've got the prettiest home in my section of the county, and I wouldn't swap my country place for a single home in Atlanta to live in for pleasure and comfort.

Prosperity of North Fulton. "With the citizens of Atlanta becoming more and more disgusted with the congested conditions in its residence districts, they are pouring into the northern section of Fulton county. This means prosperity for north Fulton during the next few years such as has been seldom experienced by any section of a county.

"And the fact that north Fulton has everything in the way of natural advantages that could possibly be asked is going to keep the tide turned that way after it gets to flowing good.

"To keep your eye on the property lying between Atlanta and the northern county line if you want to see a remarkable development during the next few years."

Mr. Burdett says he has invested in numerous tracts of land in North Fulton, and has never yet lost a dollar on any of them, but on the other hand, has made as much as 100 per cent profit within six months' time. He is an enthusiastic believer in North Fulton property, and has sufficient grounds for his convictions, as his four years' experience with real estate, which has been principally in this section, has made him one of the wealthiest citizens of North Fulton. He is senior member of the firm of Burdett Realty company, president of Brookwood Real Estate company, and president of Piedmont Water company, which company is now laying a water main from Ansley Park along Piedmont avenue, a distance of about four miles, to Peachtree road. He believes that the possibilities of north Fulton property are greater now than ever before.

\$60,000 APARTMENT FOR THE NORTH SIDE

Handsome New Building Will Stand at Corner of Juniper and Third.

Interesting building developments of the past week included the announcement of the Mackie-Crawford contracting company that the firm was completing plans and specifications for an elaborate \$60,000 apartment building to be erected for F. E. Mackie and T. L. Swift at Juniper and Third streets.

A. N. Canton, the architect, is completing the plans. The building is expected to be complete within a few months. It will be erected on a lot 100x140 on property leased from Mrs. Bertha M. Swift for a period of 25 years.

Another north side development that attracted much attention, especially to suburbanites interested in property in the vicinity of Brookhaven club, was the announcement of Mr. Quinby of the \$15,000 residence he is to erect on Brookhaven drive east. The structure will be modern in detail, and one of the handsomest in the territory.

Dancing Master—Couldn't we persuade our husband to take a course from me, too?

Pup!—Don't you dare! Do you think I would trouble myself for weeks, and then dance with my own husband—Lustige Blatter.

Very Reasonable Prices

We have subdivided this estate and can offer it at prices that will never prevail again. The location is ideal, and directly in line for improvements, as the car line is certain to be extended within a short time, besides the building of Oglethorpe, which is in this immediate vicinity. There is no property on Peachtree between this tract and the city that is being offered for sale by the acre. It is being sold by the front foot, at prices from \$30 to \$100 per front foot. We can sell you any size tract at a very low price, and one that will let you in on the ground floor, on very reasonable terms.

Doubtless you have often made mention of what you could have done on Peachtree a few years ago. The opportunity is again knocking, but will not tarry. Remember that there is only one Peachtree, and that Peachtree is almost as widely known as Atlanta itself. Take advantage of this opportunity now. It is not a question of the safety of the investment, but how much can you handle on easy terms.

One of the handsomest country homes in Fulton county, from which he has come to his office and gone back each day in an automobile without missing a single day in four years. The home is eleven miles from the center of the city. Bottom photo, Mr. Burdett.

In 1909 the owner of some small farms and a sawmill in the northern section of Fulton county—
In 1912 the proprietor of a business, the annual sales of which have reached three-quarters of a million dollars, and to which he comes in his handsome automobile each day from his magnificent country home—
That is what his faith in Atlanta and Fulton county real estate has done for R. E. Burdett of the Burdett Realty company, of this city.
Born 53 years ago during the first years of the civil war, in the upper part of the county on the Chattahoochee river, near Powers Ferry, Mr. Burdett was reared in the country, purchasing in 1903 a small farm, which he sold four years past at six times its original cost and purchased the place on which he now lives.
It was not until 1909, however, that Mr. Burdett made the plunge into the real estate business, which has made him one of the wealthiest citizens of the county outside of Atlanta. When seen by a Constitution representative Saturday he talked interestingly of the wonderful returns he has secured from his faith in Atlanta and Fulton county land, and says he has never lost a dollar on a single purchase yet.

"When I made up my mind to enter the real estate business four years ago," he declared, "I was induced to do so by my absolute conviction that the opportunity of a lifetime lay in the investment in and selling of real estate around Atlanta, especially in that section which lies between Brookhaven and the county line to the north."

"Peace Day" of Educational Value

Messages heartily endorsing Miss Baxter's work as chairman of the state committee on peace arbitration are published today from Mrs. J. L. Fitzpatrick, president of Georgia Federation of Women's Clubs, and Professor M. L. Brittain, state superintendent of education. It is again urged that "Peace Day," May 18, be appropriately observed by clubs, schools and churches everywhere. The women of this country are responsible equally with men for its defense. The great work of mothers, teachers and nurses fight against real enemies that fill our cemeteries with graves.

The peace movement is primarily a plea for justice, for the substitution of the system of law for the system of war. The peace party stands for world organization. More has been done for the world organization since the Hague conference of 1899 than in all the history of the world before. All nations since that time have definitely and officially undertaken the task of organizing the world for peace. The peace movement has become political, and many hundred members of the parliaments of the various nations are now leagued together in the international union, co-operating in those measures which shall gradually supplant war by law. The scope and character of the third Hague conference will depend upon the world's public opinion. That public opinion will depend upon the intelligent study devoted to the situation in the immediate future.

The United States is perhaps the greatest and most influential peace society in the world, because it illustrates over a broader area and with greater power than is anywhere else the case the beneficent operation of the three great principles of interstate free trade, an interstate court and federation, which are all that is necessary to extend to international affairs to give us precisely the kind of organized world we want.

Club women of Georgia, America, have direct responsibility to create public opinion as to the government to take the most advanced steps in the decision that must be made as to what questions can be submitted to the coming monetary conference.

"Outlines of Study" will be supplied gratis by the information bureau. In nothing are women so privileged to take part in shaping the world's history as in this great opportunity for using their powerful influence for securing international peace.

Educational Work of the D. A. R.

Each year the work of the Georgia Daughters of the American Revolution has widened and expanded. New chapters have been organized, and increased activity is reported among the chapters.

The question of immigration in the last few years has been one of vital importance to all southerners. They bring us many gifts, these strangers; they are willing to give their best to the new country which they have chosen for their home. With what spirit will we meet them?

The school is the most important phase of the great constructive welfare movement.

The Daughters of the American Revolution are striving to educate those true and primitive Americans who have been shut off from the world and enlightenment for years. They wish to see of these boys and girls strong and courageous men and women. Our country will need them in the future to help educate our American citizens who are pouring into our land day by day.

The Martha Berry Industrial School for Boys and Girls, founded and conducted by Georgia Daughters of the American Revolution, is a splendid example of the good being accomplished in North Georgia. Mineral Hill Industrial School for Girls appeals very much to the Georgia Daughters. Plans are now being made, and we hope in the very near future to have, in south Georgia an industrial school of like nature.

In today's columns will be found important announcements of the scholarships offered through the national society. Cannot some Georgia girl win one of these?

The report of Mrs. John M. Graham, chairman committee of patriotic education, will be published on the page today, and will be read with interest. This is work that is largely new, and this report will give in a concise manner the work of the chapters in an educational way. It is to be regretted that every chapter is not represented in this report, for this report is always sent to Washington, and it is hoped another year that every chapter in the state will have their work reported through the chairman of patriotic education in order that what Georgia is doing in an educational way will be published in the world.

Fine Report of Committee
On Patriotic Education

In the work pointed out for us by the constitution of our society, the education of the young is the first and most important. The spirit of the motto which has always been the motto of the society is "We are the daughters of the American Revolution." In recent years we have been particularly successful in the work of patriotic education.

★★ IN THE SOCIAL WHIRL ★★

By Tama Dooley.

"Write about 'Society' as you see it," assigned the editor this week. "It is all right about the serious side, the 'organizations' and 'out-frag' and 'cleaning up' but people like to read about society, meaning the people who are doing things."

"Localize the stuff," he further explained. "Tell what happened this week, and what is set to happen next week. Write about the 'Easter bonnet' and your personal observation of things."

"Why, that is what I have in my diary," I complained, "nobody wants to read that. It is about Atlanta in her every-day clothes!"

ATLANTA TODAY.

Chapter I.

The individuality of an entertainment, whether it is one formal or informal, one large or small, is one of the first requisites of its success. Though convention must ever be respected in the form society chooses for entertainments, that convention does not mean uniformity. It is this uniformity, on the contrary, which makes people complain of ennui in society. As yet in America there are still the "precious few" belonging to what the

old world calls the "leisure class." Not the multi-millionaire in the leisure man in this young, prosperous country of ours, though it is said to represent more wealth this moment than any other country in the world. American "society," therefore, though a most active and complex institution, a most lavish and brilliantly disorganized system all of its own, has much to offer to pleasure lovers in hospitality and entertainment. It is wholesome, democratic and certainly intensely active, yet I do not believe the most loyal of Americans will deny that our form of entertaining lacks in individuality.

Atlanta is essentially an American city. People who visit here from great world centers declare we combine the hospitality they had expected in the south, the social spirit and entertainment, with the mode and completeness of detail they observe in the north.

But with all this, Atlanta lacks individuality in its entertainment. The menu of the season rather uniform in their design and development. The menu choice, the decoration pretty and company agreeable, the hostesses rarely work out a scheme which might be termed individual, though it would be difficult to find in any community as many brilliant and gifted women as there are in Atlanta's entertaining group.

During the past week an Atlanta hostess, just for an innovation, gave a "baby party." All the ladies came in juvenile nursery costumes, and the men as brothers to Buster Brown and similar characters. But the hostess kept it a dark secret. It was not the usual dinner dance, and she feared the lack of uniformity might be a little too sensational. She had a right to privacy, though there was nothing unique about the costume party, yet the individuality of it was refreshing.

There are many features of entertainment which might be introduced now at parties at private homes which would render them not only individual, but delightfully interesting. For instance, nothing would be more timely and appropriate than an operatic evening or program with some clever man or woman interpreting some one of the operas to come—maybe, Massenet's "Manon." The characteristics of the composer might be explained; then a pianist giving illustrating selections and a vocalist touching some of the famous selections from the opera.

Such a program need not be long, does it require artists to make it charming, though it would require artistic taste to make it go.

A Strauss evening, with discussion of the new opera, "Rosekavalier," about which so much is being written, would delight everybody, and I could imagine no greater pleasure than Mr. Oscar Pappenheimer leading such a program.

Mr. Alexander Smith, whose love of music and whose talents have been so generously expressed in Atlanta's social life, is a lover of Massenet music, and one of those who rejoiced rather than complained when he heard Massenet's "Manon" at Atlanta's premiere this season. If Mr. Smith would talk of the composer and sing from him, and Mrs. Roby Robinson do the piano interpretation, it would be a gem feature of entertainment among their friends.

Mrs. Frank Inman could charmingly give an interpretative talk on any of the operas, illustrating it, her voice one of exquisite range and sweetness, and Mrs. John Marshall Slaton could talk so well of the opera "Lohengrin," reading one of the several English versions of the love theme.

The quartet recently organized and named for her could do some of the musical parts.

The home of Mrs. Frank S. Ellis would be a beautiful setting for all-

er dinner discussion of one of the Italian operas, that hostess gifted in original and individual entertaining.

A program of French music would have a charming atmosphere in Mrs. Murphy's rose drawing room, after a dejeuner, and Mrs. John Little might so well repeat in her Atlanta home a program of Russian music she once presented after dinner in her beautiful Macon home. Russian music now is delighting New York audiences, and Paris, so say those who know, is making a fad of Russian and Norwegian and Scandinavian music and literature. The sun parlor of Mr. and Mrs. Hugh Richardson would be a charming place for a group of spring songs.

And these programs so boldly suggested here need not do away with dancing; indeed, dancing must now really follow every entertainment where the "inner man" has been refreshed and lavishly nourished. The musical program need not be long.

"MEET ME AT THE ANSLEY"

A remark often heard in Atlanta. Why? Because the Hotel Ansley is the recognized bright spot in Atlanta. The management of this hotel caters to the desires and whims of its guests—thereby pleases.

Service—and genuine service—is the slogan of The Ansley, and because it has been conducted on such lines is why it is so popular with not only the traveling public, but all Atlantans.

The Rathskeller is known as the most popular dining place in Atlanta and one of the show places of Atlanta, being conducted as a strictly high-class Cafe and catering only to the best class of patronage. It has become known that The Rathskeller is where one may take his wife or family and enjoy a good meal, good service and hear the finest music in the city. The only Electric Chime Staff Bells ever installed in the south are now being installed in The Rathskeller, and will be in operation next week, and hear them.

Just something to stimulate the intellect and give people confidence in themselves, and what they can talk about.

It would revive general conversation among men and women, the interchange of ideas which made the French "salon," and "salon" hostesses so famous, and gave society in the

older countries that piquancy which makes us delight in reading of it. These people were no more gifted by God with brain than we are. They just used it differently; applied it more faithfully. They were individual. That is what should be the more cultivated with us—individuality—without so much uniformity, with convention still kept high on the pedestal!

"Home of the Redfern"

Redfern Corsets

Beautiful Corsets

For Delineating the Natural Figure

Yes, beautiful is the proper expression to describe the REDFERN MODELS for Spring—dainty in appearance as the finest lingerie so light and flexible that you wonder how they can support the figure.

This is where the scientific touch of the Redfern designers comes into play; for every REDFERN MODEL is so fashioned as to mold the form in graceful lines, and support with a sense of relaxation that is luxurious.

Well dressed women everywhere are wearing REDFERN CORSETS. You can easily distinguish the wearer of a REDFERN by a figure resiliency that is most appealing.

There is no corset that we know—and we know every corset worth knowing—that responds so admirably to every figure requirement, and we fit dozens a day.

"Normal Figure"

Many of the new styles this spring are the topless "normal figure" models—which show such features as the "Curved Clasp" now so popular in Paris; and admirably, adapted for certain types.

Whatever your preference, whether for a topless, low or medium high corset, you can make no better selection for shape, comfort and general satisfaction than a Redfern.

Redfern Corsets

Whatever price you pay for a Redfern, it is fitted by a corsetiere who has received her instruction from our corset counsel, who in turn has been thoroughly familiarized with the REDFERN MODELS through the designers of these corsets.

The Redfern here displayed shows one of the new lightly boned models—a sweet, smooth, cozy-fitting corset—a corset that you run, play, do anything in, and know that your figure lines are right.
